**RETIREMENT OF PROFESSIONAL STAFF MEMBERS**

Under Massachusetts law, all professional personnel participate in a teachers' retirement plan which provides several options on time of retirement and benefits granted to those who retire. It also sets limitations on the number of days a retired employee may be re-employed annually on a temporary basis by the school system.

Annually, the Superintendent will inform the Committee of the professional staff members who have indicated their intention to retire at the end of the current school year. No further School Committee action is necessary unless approval is needed for the payment of or participation in continued local benefits.
